Pope Leo Does Not Approve of Cardinal Gibbons' Policy.

Chleage, Oct. 17 .- In accordance with nstructions from Pope Leo submitted brough Mgr. Satelli, a decree will shortly be issued by the archbishops of the country informing Catholics that ongresses. The letter to the fally is ouched in the most inoffensive lan guage, but the instructions to the priests, who will direct the congregaions will be more explicit.

The letter is looked upon by promient Catholics as a direct blow at the polley of Cardinal Gibbons and Archolshop Ireland, who were not only most prominent in the congress of religions. but who openly urged the holding of such congresses. The document b written in Latin and addressed to Mgr. Satolli. It reads as follows:

Venerable brother: Health and apostolic benediction

We have learned that in the United States of America conventions are sometimes held in which people assem ole promiscuously, Catholics as well as those of other denominations, to treat upon religion as well as upon correcmorals. In this we recognize the desire for religious things by which this people is animated more zealously from day o day. But although these promiscuous conventions have unto this day been tolerated with prudent silence, t would nevertheless seem advisable that the Catholies should hold their conventions separately, and that lest the utility of these conventions should result simply to their own benefit they might be called with this understanding -that admittance should be open to all also to those who are outside the Catholic church.

Whilet we consider it incumbent upon our apostolic office, venerable brother, to bring this to your attention, we are also pleased to promoted by our recommendations the practice of the Paullet fathers, who prudently think fit to speak publicly to our dissenting brothren, both n order to explain Catholic doctrines. If every bishop in his own diocese will promote this practice and a frequent attendance at these sermons i will be very pleasing and acceptable to

small benefit for the welfare of souls will arise therefrom. Wishing you in the meantime, vener able brother, the gifts of Divine Grace, we impart to you with the most loving spirit the apostolic benediction, a proof

of our special love. Given in Rome, this eighteenth day
